HEIGHT	WIDTH	DEPTH
11.2"	6.8"	8.1"
(284mm)	(173mm)	(206mm)

Due to continued product improvement, specifications may be subject to change without notice.

Installation Benefits
Easy to install Quick-Connect fittings and improved connections reduce probability of kinked or twisted water lines.

Fingertip Adjustment
190° hot water at your fingertips. Adjusts from 140° to 190°. Great for cooking, instant coffee, tea or use in a wet bar.

Energy Efficient
Uses less electricity than a 40 watt light bulb, costing less than \$2.00/month to operate. Comes with installed power cord.

Improved Performance
1300 watt heating element allows faster recovery time compared to other brands. A large 5/8 gallon reservoir delivers a generous 100 cups per hour capacity.

Automated Heater Protection
Self re-setting thermal fuse protects the product in the event of a dry start up.

Improved Performance
Due to the high temperature of the water, the tank is not under pressure. Our self-contained expansion chamber reduces dripping and will not explode, causing leaks, as with competitors product.

“OPEN VENT” FAUCETS

Sonoma Series (hot only)

Available in Chrome (H610-CH), Brass (H610-BR), Satin Nickel (H610-SN), Biscuit (H610-BQ), and White (H610-WT)

Available in Antique Copper (H730-AC), Polished Chrome (H730-CH), Satin Nickel (H730-SN), and Oil Rubbed Bronze (H730-ORB)

Monterrey Series (dual temperature)

Available in Antique Copper (D740-AC), Polished Chrome (D740-CH), Satin Nickel (D740-SN), and Oil Rubbed Bronze (D740-ORB)

TYPICAL INSTALLATION

Inline Water Filtration Systems

- Provides fresh tasting water, coffee and beverages.
- Advanced filtration and contaminant absorption system reduces sediment, rust, chlorine taste, odor, lead and cysts that may be present in the water supply.
- Sanitary Quick Change filter cartridges for easy installation and service – no spills, no mess.
- 1/4 turn quick-change filter design eliminates risk of injury and physical challenges associated with under-sink appliance maintenance.
